Document 1: JP 2-307929 A (Toyobo Co., Ltd.), 21 December 1990, entire text (Family: none)

Document 2: JP 2-300338 A (Toyobo Co., Ltd.), 12 December 1990, entire text (Family: none)

Polyester blended yarns that are configured from a self-extensible polyester multifilament yarn (A) and a heat-shrinkable polyester multifilament yarn (B), wherein said polyester multifilament yarn (A) comprises a core part and a plurality of fins, which protrude radially from the core part along the lengthwise direction of said core part, and also has a configuration that simultaneously conforms to all of the requirements delimited in formulae (a) to (c) set forth in claim 1 of the present application, are not disclosed or suggested in documents 1 to 2 cited in the international search report; furthermore, the feature in question cannot be considered to be obvious.

Furthermore, claims 2 to 6 are dependent claims that cite claim 1, and thus the inventions set forth in claims 2 to 6 are novel and involve an inventive step in as much as the invention set forth in claim 1 is novel and involves an inventive step.
